

A digital home worthy of the school.

Three ways to begin — from a beautifully rewritten website to a complete academy platform. Choose what fits this year; everything is built so the next step simply clicks in later.

PREPARED FOR JIAYIN DU & ANGELBABY LIU

ALL PRICES IN AUSTRALIAN DOLLARS

What we see in your school

Jiayin MasterClass is a rare thing: Vaganova training examined by the Royal Academy of Dance, led by a faculty formed at The Australian Ballet, with a curriculum planned in years rather than terms. Families entrust the school with a serious commitment, and the training honours it.

The school's digital presence should carry the same discipline. Today it doesn't — the website undersells the faculty, events are ticketed on someone else's platform, and the daily work of schedules, invoices and parent messages runs on effort rather than on a system. This proposal is a menu for closing that gap, one piece at a time or all at once.

ABOUT THE RATES IN THIS DOCUMENT

Jiayin MasterClass would be a founding client of my practice. The rates here reflect that, and each is shown beside its studio value so the arrangement is transparent — this is the work of a much larger engagement, offered at a founding rate in exchange for the chance to build something exceptional together (and, if the school is happy, a testimonial and a case study).

Three ways to begin

Start anywhere. The website is built on the same foundations as the full platform, so beginning small never means rebuilding later.

A QUIET BEGINNING

The Website

3-4 weeks

\$2,000

\$9,000 studio value

- Complete redesign in a new brand — palette, typography, photography direction
- Every page rewritten in a voice worthy of the school
- Faculty presented as an institution, not a list
- Editable by you — programs, events and news without a developer
- Tour & enrolment enquiry forms to your inbox
- Domain and email tidy-up (goodbye, gmail address)
- Events link to TryBooking for now — upgrade below whenever ready

THE BALANCED PATH

The School System

10–12 weeks

\$9,500

\$28,000 studio value · save \$2,200 vs. à la carte

-
- Everything in The Website
-
- Ticketing on your own site — masterclasses & holiday programs sold under your brand, not TryBooking's
-
- Scheduling: terms, classes, teacher timetables, studio clashes caught automatically
-
- Live calendars every family & teacher can subscribe to on their phone
-
- Invoicing through Stripe — annual, per-term or monthly instalments, paid by direct debit or card
-
- Automatic reminders: weekly schedule digest, change alerts, polite payment follow-ups
-

THE COMPLETE ACADEMY

The Full Build

18–22 weeks

\$19,500

\$52,000+ studio value

-
- Everything in The School System
-
- Parent app — schedules, invoices, absences and forms, installable on any phone with push notifications
-
- Teacher app — day sheets, rosters, one-tap attendance
-
- Custom forms & consent records — media consent, medical, costume sizing, auditions
-
- 中文 — full Chinese-language site and communications
-
- SMS alerts for cancellations and event days
-
- Xero sync for your accountant
-

The parent and teacher apps are installable web apps — they live on the home screen with push notifications, with nothing to download from an app store and no store fees. A listed App Store presence can be quoted separately if ever wanted.

Or choose piece by piece

Every module stands alone and can be added in any order, in any year. Founding rates below; bundles above simply collect the most-needed pieces at a further saving.

MODULE	WHAT IT GIVES YOU	RATE	PART OF
Website redesign & copy	New brand, every page rewritten, editable content, enquiry forms	\$6,500 \$2,000	A · B · C
Brand guidelines	Palette, typography, photography & voice rules — yours to keep, for print and studio use too	\$2,500 With our compliments	A · B · C
Event ticketing	Masterclasses & holiday programs sold on your own site; attendee lists and revenue stay yours	\$2,800 \$1,400	B · C
Scheduling & administration	Students, families, classes, terms, teacher timetables, clash detection, live subscribe-able calendars	\$8,500 \$3,800	B · C
Invoicing & payments	Annual tuition with instalment options, direct debit & card, receipts, arrears view	\$7,000 \$2,900	B · C
Family communications	Weekly digest, change & cancellation alerts, payment reminders — every message logged	\$3,500 \$1,600	B · C

Parent app	Installable app: schedules, invoices, absences, forms, push notifications	\$6,500	\$2,800	C
Teacher app	Day sheets, rosters with photos, one-tap attendance	\$5,000	\$2,400	C
Custom forms & consents	Media consent, medical details, costume sizing, audition applications — chased automatically	\$3,000	\$1,400	C
中文 Chinese language	Full Chinese site and communications, properly typeset	\$3,500	\$1,600	C
Xero sync	Invoices and payments flow to your accountant automatically	\$2,500	\$1,200	C
SMS alerts	Text messages for cancellations and event-day reminders	\$1,200	\$600 + usage	C

With our compliments, whichever path you choose

- **The brand guidelines document** — the school's palette, typefaces and voice, usable well beyond the website (\$2,500 value).
- **Three months of post-launch support** — fixes, tweaks and questions answered, no invoices.
- **Content migration** — everything worth keeping from the current site, moved and tidied.
- **Domain & email setup** — one address (jiayinmasterclass.com), professional email on your own name.
- **A training session** — an hour with you and whoever runs the office, plus a short written guide.

After launch

Websites and platforms are living things — they need hosting, backups, security updates and a person who answers. After your three complimentary months:

CARE PLAN	INCLUDES	MONTHLY
Website only	Hosting, backups, updates, small content changes, support	\$120
School System / Full Build	All of the above plus platform monitoring, priority fixes, and an hour of improvements each month	\$280

Third-party services (payment processing, text messages) are billed by those providers at cost — typically modest, and always visible to you. For comparison: off-the-shelf dance-school software alone runs \$200–300 per month, looks like everyone else's, and none of it would be yours.

How it works

- 01 Choose a path — or a set of pieces — and we confirm the scope in writing on a single page.
- 02 A 40% deposit begins the work; the balance falls at agreed milestones (for The Website: simply half now, half at launch).
- 03 We hold a short discovery session — an hour on how the school runs today, so the system fits how you actually work.
- 04 You review as we build, at real, clickable previews — never a surprise at the end.
- 05 Two rounds of refinement are included at each stage; anything beyond is quoted kindly before it's done.

And if the answer is simply "*the website, for now*" — that is a lovely place to begin. It will be built so that everything else in this document can join it, whenever the school is ready.
